THORACIC AORTA

DISSECTIONS AND ANEURYSMS OF THE THORACIC AORTA

1 Aortic dissections: new concepts	4
M. DAKE	
2 Type A Acute Dissections: is Stenting an Option	11
M. THOMPSON, R. HINCHLIFFE, P. HOLT, R. MORGAN, I. LOFTUS	
3 Type B acute dissection: the role of Cook dissection device	14
J. LOMBARDI	
4 Uncomplicated type B dissections: should they be left alone?	15
R. FATTORI, G. MINEO, G. RINALDI, M. DI EUSANIO	
5 Fenestrated and Branched Solutions for Chronic Type B Dissections	19
E. VERHOEVEN, K. PARASKEVAS, H. RENNER	
6 Tips and tricks to make the ascending aorta accessible to EVAR	23
M. LACHAT, F. PECORARO, Z. RANCIG, F. J. VEITH, D. MAYER	
7 Adjunctive surgery prior to endovascular repair of TAAA	30
T. A.M. CHUTER	
8 The left subclavian artery: which strategy?	35
V. MOULIN, S. CHOCRON, J-F. BONNEVILLE	
9 Open repair of extensive thoracoabdominal and thoracic aneurysm	40
D. PLISSONNIER, N. DAVID, M. BAILLEUX-MOISANT, S. GODIER, F. DOGUET, J-P. BESSOU	
10 Acute aortic syndrome	45
R. CLOUGH, P. TAYLOR	

TECHNIQUE, SCIENCES & DEBATES: ABDOMINAL ANEURYSMS

HARD DATA ABOUT AAA

11 Can drugs replace surgery for AAA?	54
I. GUESSOUS	
12 How often does a small abdominal aortic aneurysm need re-surveillance?	58
J. POWELL	
13 Can we predict the risk of rupture according to AAA morphology?	62
C. GASSER	
14 The fate of patients turned down for surgery and a plea that these data need reporting	68
M. THOMPSON, A. KARTHIKESALINGAM, P. HOLT, I. LOFTUS	

ABOUT SAFETY AND RISK OF AAA REPAIR, WHAT IS THE BEST OPTION...

15 ...for low risk patients?	74
R. HOUBBALLAH, F. COCHENNEC, P. DEGRANGES, E. ALLAIRE, J-P. BECQUEMIN	
16 ... in good anatomy patients?	78
F. VERZINI, G. ISERNIA, G. SIMONTE, D. LOSCHI, L. FARCHIONI, P. CAO	
17 ... in extremely angulated proximal AAA necks?	87
F. BASTOS GONÇALVES, J-P. P.M. DE VRIES, M. T. VOUTE, J. M. HENDRIKS, E. V. ROUWET, S. TEN RAA, FL. MOLL, J.A. VAN HERWAARDEN, H. J.M. VERHAGEN	
18 ... in inflammatory AAA?	97
M. AKSOY	

WHAT MAY HAPPEN AFTER EVAR?

19 The real life EVAR surveillance in Europe	102
P. LERUT, V. RIAMBAU	
20 Sac enlargement after EVAR	107
J. P SIMONS, A.SCHANZER	
21 Rupture following EVAR: how frequent, how severe and in which patients?	118
T. R WYSS, R. M GREENHALGH	

TECHNICAL ASPECTS

22 Loco-regional Anaesthesia for Endovascular Aneurysm Repair	124
A. KARTHIKESALINGAM, SG. THRUMURTHY, E. YOUNG, RJ. HINCHLIFFE, PJE. HOLT, M.M. THOMPSON	
23 UltraSound-guided puncture for EVAR	134
P.PERINI, B. MAUREL, J. SOBOCINSKI, M. GUILLOU, R. AZZAOLI, M. MIDULLA, S. HAULON	
24 Closure devices or fascial suture?	144
T. LARZON	
25 Technical Aspects: which is the best introducer system?	148
C. MIALHE	
26 Is there still a role for aorto uniiliac EVAR?	153
R. HASSEN-KHODJA, A. MOUSNIER, S. DECLEMY, A-M. FILMON, E. JEAN BAPTISTE	

DO WE HAVE ALGORITHM TO HELP OUR CHOICE?

27 Siena EVAR Score	160
C. SETACCI, P. SIRIGNANO, F. SETACCI, G. GALZERANO, G. DE DONATO, D. CERIELLO, G. PARONI	

CAROTID

TECHNICAL ASPECTS OF CEA

28 Sedation or loco regional anesthesia for CEA?	173
G. MARCUCCI, F. ACCROCCA, A. SBROSCIA, G. PIERETTORI, R. ANTONELLI, R. GABRIELLI, A. G. GIORDANO, F. MOUNAYERGI, A. SIANI	
29 How to repair a non-atheromatous carotid lesion?	181
M. BOUAYED, L. A. BOUZIANE	
30 Controversy: quality control post CEA is... a waste of time and money	186
D. SRINIVASAMURTHY, J.D. BEARD	

A LOOK INTO THE META ANALYSIS OF CAS VERSUS CEA...

31 ... in asymptomatic patients	193
<small>T. LUEBKE, J. BRUNKWALL</small>	
32 ... in symptomatic patients	205
<small>J.L. MAS</small>	
33 Does case load matter for the results ?	208
<small>P. CAO</small>	

TECHNICAL ASPECTS OF CAS

34 How to select a candidate for CAS	211
<small>C. SETACCI, G. DE DONATO, F. SETACCI</small>	
35 What is the best approach for CAS?	219
<small>A. AMIN</small>	
36 What is the best cerebral protection device?	222
<small>J. S. MATSUMURA</small>	
37 What Is The Best Stent?	227
<small>S. MACDONALD</small>	
38 Controversy: CAS is back: is it justified? No: CREST and other trials are misinterpreted	231
<small>F. J. VEITH, K. I. PARASKEVAS</small>	
39 The Reasons Why We Need More Trials	237
<small>C.P.E. MILNE, A. HALLIDAY</small>	

HONORARY GUEST LECTURE

40 The top ten recommendations from the ESVS carotid guidelines	245
<small>C. D. LIAPIS, J. D. KAKISIS</small>	

ANGIOACCESS

VASCULAR ACCESS MATURATION: PROGNOSIS FACTORS

41 Computerized forecast	259
<small>J. TORDOIR</small>	
42 Logical prediction from duplex scan	263
<small>G. FRANCO</small>	

VASCULAR ACCESS IN LOWER LIMBS

43 Long-term results of femoral vein transposition for autogenous arteriovenous hemodialysis access.	271
<small>P. BOURQUELOT, M. RAWA, O. VAN LAER</small>	
44 PTFE grafts	278
<small>C-P. GIBBONS</small>	

SHOULD THERE BE CONTROLLED TRIALS FOR VASCULAR ACCESSES?

45 Yes, there should be.	283
<small>C-P. GIBBONS</small>	
46 No we don't need them	288
<small>J. TORDOIR</small>	

47 Early experience with vascular plug	294
--	-----

AC. RAYNAUD, B.BEYSSEN

UPDATES IN VASCULAR ACCESS

48 Endovascular procedures for central venous catheter insertion	303
--	-----

B. BEYSSEN, M. DI PRIMIO, O. VAN LAERE, A. RAYNAUD

49 Stents: indications and results	308
--	-----

D. HENROTEAUX

WHAT MAY AFFECT THE RESULTS OF VASCULAR SURGERY?

50 Vascular complications of TAVI: why vascular surgeons have to be involved.	315
--	-----

M. LASKAR, A. LEGUYADER, F. PESTEL

51 Will we be short of vascular surgeons ?	319
--	-----

L. BERGER, J.M. MACE

PERIPHERAL OCCLUSIVE DISEASE

LONG SFA LESIONS: NEW BYPASS TECHNOLOGY OR ENDOVASCULAR REPAIR ?

52 Endoscopic venous harvesting and bypass is the best option.	331
---	-----

D. DANZER, F. COCHENNEC, J-P. BECQUEMIN

53 Endovascular repair is much better.	336
---	-----

M. BOSIERS, K. DELOOSE, J. CALLAERT, K. KEIRSE, J. VERBIST, P. PEETERS

THORACO ABDOMINAL LESIONS

54 How to prevent complications of fenestrated and branched stent grafts?	343
---	-----

G. PANUCCIO, K.P. DONAS, M. AUSTERMANN, G. TORSSELLO

55 Are there still indications for hybrid procedures?	348
---	-----

I. LOFTUS

56 Open versus endovascular for thoraco abdominal pathologies: open surgery is the best.	353
---	-----

M. JACOBS

57 The Multilayer Flow Modulator (MFM) - a radical solution?	357
--	-----

C. VAISLIC, J-N. FABIANI, A. BENJELLOUN AND THE STRATO GROUP OF INVESTIGATORS

PERIPHERAL OCCLUSIVE DISEASE BELOW THE KNEE

58 What is the best imaging for tibial diseases?	365
--	-----

J. WOODHOUSE, S. ANTHONY, R. UBEROI

59 Tibial disease pattern and strategy for BTK angioplasty	372
--	-----

P. A. SCHNEIDER

60 Retro malleolar angioplasty	377
--------------------------------------	-----

T. RAND

AORTA AND ILIO FEMORAL ARTERIES

61 Totally occluded aorto-iliac artery: endovascular therapy	383
V. BRIZZI, A. MILLON, N. DELLA SCHIAVA, Y. PAQUET, P. FEUGIER, P. LERMUSIAUX	
62 Occluded aorto-iliac arteries: open surgery is still indicated!	390
R. CHAER, M. MAKAROUN	
63 Common femoral artery. Endovascular repair: it works	395
Y. GOUËFFIC, L. AZÉMA, J.-M. DAVAINÉ, J. QUÉRAT, A. COSTARGENT, P. CHAILLOU, P. PATRA	
64 Common femoral artery: why open repair is more efficient and safer	403
L. CHICHE, P. TRESSON, Y. GEORG, C. GOULFIER, E. LEBIED, J. GAUDRIC, F. KOSKAS	

RENAL AND PERIPHERAL OCCLUSIVE DISEASE

65 Renal denervation for hypertension: a new field for interventionalists	414
A.-K. ZIEGLER, B. KALTENBACH, I. HOFMANN, H. SIEVERT	
66 Drug eluting balloon: how does it work, what are the results?	415
J. VAN DEN BERG	
67 PTFE graft heparin bonded, does it improve patency?	421
J. LINDHOLT	
68 Can we select subintimal angioplasty or bypass by duplex scan?	428
W. TAWFICK, S. SULTAN	

POST THROMBOTIC SYNDROME AND DVT

69 Controversy:	
Post-thrombotic syndrome in patients with iliofemoral DVT is underestimated ..	441
A. J. COMEROTA	
70 Association of deep vein reflux and obstruction in post thrombotic syndrome.	
What is the culprit?	445
M. LUGLI, S. GUERZONI, O. MALETI	
71 The 2011 SVS/AVF guidelines for management of chronic venous disease.	
What is already outdated?	451
P. GLOVICZKI, J. M. R. ROBERTS	
72 Thrombosis of subcalvian vein... An algorithm for operative treatment.	457
G. GEROUKAKOS	
73 Etiology and pathophysiology of varicose vein recurrence at the saphenofemoral and saphenopopliteal junction	461
M. DE MAESENEER	
74 Post-surgical neovascularization: does it exist?	467
P. LEMASLE	
75 Lymphatic complications after varicose veins surgery: risk factors and how to avoid them?	473
P. PITTALUGA, S. CHASTANET	
76 Recurrence at the saphenous femoral or popliteal junctions... should never be operated on	477
I. VANHANDENHOVE	
77 Health policy decision making	481
I. DURAND-ZALESKI	

SCLEROTHERAPY

- 78 **Foam sclerotherapy is safe: biological proof** 485
A. FRULLINI, R. DI STEFANO
- 79 **Foam sclerotherapy is not safe: neurological complications** 488
A. C. SHEPHERD, T. R. LANE, A. H. DAVIES
- 80 **Sclerotherapy treatment of telangiectasia using ultrasound guidance** 493
C. HAMEL-DESNOS
- 81 **Superficial venous reflux operative treatments: are they cost effective and who should pay?** 496
M. GOHEL, A. DAVIES
- 82 **Randomized controlled trials in varices endovenous treatment. A review** 500
M. PERRIN, B. EKLOF
- 83 **Quality of Life as a tool to ration intervention?** 511
A. C. SHEPHERD, T.R. LANE, A. H. DAVIES

THERMAL TECHNIQUES

- 84 **Histological comparison between different endovenous techniques** 519
G. SPREAFICO, R. GIORDANO, P. PAVEI, G. IADEROSA, A. NOSADINI, E. GIRALDI, A. PICCIOLI, M. FERRINI, U. BACCAGLINI
- 85 **Laser treatment without tumescent anesthesia. Is it possible?** 522
J. FERREIRA
- 86 **Endovenous laser treatment of varicose veins in patients with von Willebrand disease.** 526
P. TERLECKI, T. ZUBILEWICZ, M. GÓRSKA, M. IŁŻECKI, J. WRÓŃSKI, S. PRZYWARA, A. DMOŚZYŃSKA
- 87 **The cutting edge: Tumescentless ablative procedures for the saphenous vein** 533
T. R. SHAH, L. S. KABNICK
- 88 **Steam ablation: Two year follow up** 539
R. MILLERET

CHRONIC CEREBROSPINAL VENOUS INSUFFICIENCY AND MULTIPLE SCLEROSIS

- 89 **Is chronic cerebrospinal venous insufficiency (CCSVI) the cause for multiple sclerosis (MS)? Not necessarily.** 546
J.J. GUÉX
- 90 **Test your knowledge with multiple choice questions** 551
