A photograph of a large, ancient stone pyramid, likely a Mayan or Aztec structure, set against a deep blue twilight sky. The pyramid is constructed from dark, weathered stone blocks and features a small, rectangular window near its top. The structure is illuminated from the side, highlighting its stepped profile. In the foreground, there is a grassy area with several small, thatched-roof huts and stone markers. Lush green trees frame the scene on both sides, and other ruins are visible in the background.

**Merci
beaucoup!**
