The idea started in 2008

Michel Perrin and Bo Eklof
decided to build up a transatlantic
consensus on chronic venous disorders
(33 words) – THE VEIN TERM

Why the VEIN term?

They realize that there were discrepancies in the literature in the application and interpretation of those terms, consequently the need for uniformity

The glossary project

- 1000 words selected
- 6 working groups
 - 1 coordinator
 - 4 specialist, 1 native english

on line version

The Vein glossary

- a needed resource for communication in Phlebology
- a tool for everyone around the World providing understanding each others

The *Vein glossary* is not a static tool:
it should adapt over time on the basis
of the phlebology evolution

Thanks to Michel Perrin for this
essential work
